

The Hague, August 10, 2018

REF: Postponement of Africa Works! 2018 to April 2019.

NABC has partnered with various organizations both private and public over the past 3 editions of Africa Works! The objective being to ensure that we provide the best possible platform and context to promote specific themes relevant for the African Continent and the business community.

The 4th edition of Africa Works! Future African Cities, has similarly attracted quite a number of partners. During the preparation phase they came with specific requests related to the context and desired outcomes of the event and the conference. In deference to the dynamics and opportunities provided under the theme, Future African Cities, NABC in collaboration with its partners therefore decided to postpone Africa Works! to April 2019.

We valued the feedback from governments and private sector in Africa and in Europe. We will continue to work with all stakeholders in the coming months to ensure that Africa Works! in 2019 will have the desired impact.

More details regarding Africa Works! 2019, including the new date will follow soon.

Yours sincerely,

Peter de Ruiter

Managing Director
NABC
